

NASP® Announces 2016 All-Academic Team

Based on the 2016 NASP® National Tournament results and using the rosters of all registered Academic Archers, NASP® announces its first All-Academic Teams for Elementary, Middle, and High School Divisions for 2016. These student archers not only excelled on the range, but also were recognized by their school for proficiency in the classroom. NASP® is proud to recognize these top student archers as they provide an excellent scholastic example for all NASP® participants in 47 states, 8 Canadian provinces, and 9 other countries. This year's All-Academic teams include:
